

The smart choice
for continuing
education

2018 Plumbing Seminar Series

Code is the foundation of everything we do in the plumbing industry. In 2018, PHCC-Wisconsin will be continuing its series of code-related programs designed to get back to the basics of the trade. Sessions will be focused on **SPS 382.32, 382.33, 382.34, 382.35 & 384.30, which includes direct fixture connections, indirect fixture connections, catch basins & interceptors, and clean-outs & materials.** Leading the discussion is Jim Davis, a Master Plumber and experienced plumbing code instructor. Jim has taught apprentices for 20+ years and has experience teaching continuing education programs for groups like PHCC-WI. The program also features time to interact with vendors, a product showcase, a brief safety presentation by Federated Insurance, and an industry update.

February 2, 2018 Ramada - Janesville 3900 Milton Avenue Janesville, WI 53546	February 16, 2018 Three Bears Lodge 701 Yogi Circle Warrens, WI 54666	March 16, 2018 Double Tree Hotel & Conference Center 11800 108th Street Pleasant Prairie, WI 53158
