About The Program/Instructors

Code is the foundation of everything we do in the plumbing industry and this year we're focusing on **SPS 382.32, 382.33, 382.34, 382.35 & 384.30**, which includes **direct fixture connections, indirect fixture connections, catch basins & interceptors, and cleanouts & materials.**

The instructor, **Jim Davis**, is a Master Plumber and an experienced plumbing instructor who has worked as an apprentice instructor and, for the past several years, as a code instructor for PHCC Wisconsin. Jim has consistently received high marks for the quality of his programs and his energetic and entertaining presentation style.

The program also features time to interact with vendors, our **Vendor Showcase**, a brief safety presentation by Federated Insurance, and an **Industry Update** by **Jeff Beiriger** of PHCC-Wisconsin.

*Continuing Education Credits

Please note that the number of hours of approved continuing education may vary depending upon the credential you hold. MP and JP will receive 6.0 hours of credit for attending the entire day of program. For other credentials, contact the PHCC & MP/HC at (888) 782-6815x1 or mail@phcc-wi.org
